of the European Union

This conference arises from the project Pro-Health65+ which has received funding from the European Union, in the framework of the Health Programme (2008-2013)

Final Conference of the Project 'Pro Health 65+' Health Promotion and Prevention of Risk. Actions for Seniors

CONFERENCE TITLE:

Health promoters and health literacy needs of older people

MAASTRICHT, 29 JUNE – 1 JULY, 2017

Main conference location:

Spiegelzaal, La Bonbonnière Theater, Maastricht, the Netherlands

Hosting organisation:

Maastricht University, The Netherlands
Associated Partner in 'Pro Health 65+' Project

Brief description

The final conference of the Pro-Health 65+ Project will be focused on presenting results of the last project stage devoted to the implementation of the project research and policy findings. Conclusions and recommendations drawn from the pilot trainings for health promoters will be presented. In these trainings, the project handbook for health promoters and innovative training methods were applied. The training experience will be discussed with a wide range of stakeholders from the participating countries.

A special session will be devoted to the final project report which will include the assessment of the implementation of the European Healthy Aging Strategy in European countries. For this debate, we will invite health policy makers, health economists and other experts from the European region. During the conference, the sustainability strategy for project achievements will also be presented and fine-tuned.

Researchers and health promotion professionals from the Netherlands, Poland, Italy, Germany, Portugal, Lithuania and the UK, among others, will take part in this conference. If you would like to participate as well, please contact the project office.

We look forward to meeting you in Maastricht!
